Dear ASC Stakeholder,

On behalf of the Affiliate Societies Council (ASC), you are invited to be an active partner in nominating deserving individuals in the Greater Dayton/Miami Valley area to receive the ASC Outstanding Engineers and Scientists Award for 2017. This year, the awards program was moved to the fall to reduce the overlap with the TechFest program.

The collective achievements and contributions made by over 484 recipients since 1971 form a tapestry of creativity, innovation and research results that benefit you, your stakeholders and the nation. The 2017 class of awardees will represent the latest and the best among the scientific and engineering achievements in our community.

Specific instructions and the 2017 Nomination Form are on the ASC Awards website at <http://www.ascdayton.org/engineers&scientists.html>. Please provide *all information requested* on the 2017 form for new nominations **AND** for re-nominations. Follow the instructions on the Awards website. Information that outlines the categories, criteria and submission procedures are given in [http://ascdayton.org/2017-ASC Awards Nomination Guidelines.pdf](http://ascdayton.org/2017-ASC_Awards_Nomination_Guidelines.pdf), which is available on the Awards website.

Please ask your fellow professional society members and/or professionals on your personal network to submit nominations. Also ask past award winners, employers and community leaders to join you in this process. Consider forming an ad hoc committee to identify deserving individuals for this award. It would be a great tribute if each society would submit a nominee; however, *nominees do not need to be members of your society*. Updated re-submissions are encouraged for previous nominees who were not selected. *Re-submissions require the 2017 Nomination Form fully completed.*

We look for nominations of current shakers and movers in the scientific and engineering community for their outstanding achievements and contributions in the areas of higher education, research, technical leadership or contribution in any recognized scientific or engineering field. Consider individuals who have received awards from their employer or professional society. This award does represent **the Best of the Best**. Our goal is to recognize outstanding engineers and scientists who will join previous awardees as models for today's youth and emerging leaders.

The ASC Awards Committee looks forward to receiving your nominations. Please submit your nomination for this year's selection cycle by **4:00 PM, Monday, August 14, 2017**. Presentation of the Outstanding Engineers and Scientists Award will be Tuesday, October 10, 2017, at the River Campus, University of Dayton.

Feel free to contact us if you need additional information or have any questions about the process.

With many thanks for your valuable interest and contributions,

Lyle Lockwood, Chair, (937) 613-3645 (mobile), [ullockwood@aol.com](mailto:ullockwood@aol.com)

Perry Yaney, PhD, Vice Chair, (937) 271-1924 (mobile), [pyaney1@udayton.edu](mailto:pyaney1@udayton.edu)
